Safer Communities, Healthier Forests

**Dene Tha' Lands Department
Meander River Fireguard Project**

Start work week of Jan 12th

**Crews will be working throughout
the community**

**Please be cautious of heavy
equipment and logging trucks**

SAFER COMMUNITIES, HEALTHIER FORESTS

A fireguard is a constructed planned barrier intended to stop or slow the spread of a wildfire. The fireguard construction project is designed to support FireSmart initiatives and to reduce the overall impact on the community from future wildfire events.
